

TESTIMONIES

TESTIMONY OF MIXALY AND LUIS ARAMBULA

Hi, my name is Mixaly Arambula, and my husband's name is Luis Arambula. We live in Las Vegas, Nevada. I was born in Mexicali, Baja California, and since I was four years old I live in the United States. My husband was born in Las Vegas, and his parents are originally from Mexico.

We got married when I was 19 and my husband was 20, this is why we decided to wait a little to have babies, so we could finish our studies and then to work in our professions. I didn't hesitate to take contraceptive pills, since I never knew I would have later on so many problems to conceive. After 1 year of taking the pill, I decided to stop taking it. I was hoping to get pregnant shortly after, but to my surprise, I didn't.

This is when I started my journey, going from one American doctor to another. Some of them told me that my problems were normal, and others simply couldn't explain why I didn't get pregnant. In my desperation to get pregnant, I started taking any home remedies without any success, and when I was in the hands of experts in the field here in the USA, I only got disappointed of the Health System in Nevada.

Finally, after several exams and lab testing, I was diagnosed with a condition that affects my ovaries. It was hard for us when they told us that the chances of us having babies was slim!

I was in the verge of a very strong depression when my cousin got me in contact with Dr Emilio Mateo. January 13th of 2005 is a date that I will never forget, since it was the longest 8 hour trip of my life from Las Vegas to Ensenada.

When I was inside of the doctor's office, I put all my hope and faith in God together. Dr. Emilio was the first doctor to examine me and we were very comfortable with the way he explained everything, step by step. Then I remember he went outside of his examination room and came back with Dr. Henry Mateo, with medicine in his hand. Both of them gave us the attention we never had before and they assured us that we would have success. Quickly they earned our confidence as they treated us with warmth and simplicity.

To our surprise, we got pregnant that same month at 28 years of age. We were so happy with Dr. Henry Mateo that we decided to travel 1 or 2 times a month for my prenatal check-up (it was the best decision we made).

Again, Dr. Henry reinforced my confidence in him when in my first trimester I started having several problems in my pregnancy. The American doctors didn't give us much hope that my pregnancy would carry on, that is when Dr. Henry "kicked it up a notch", and helped me to continue with my pregnancy. With the care of Dr. Henry Mateo for more than 7 months, I gave birth to a healthy, beautiful baby that we named:

Jonathan Cruz Arambula Fabela

Jonathan now enjoys a healthy life filled with lots of love. We know that Jonathan is a miracle for us and our family. A miracle that in a great way is from God, since he has given Dr Henry Mateo a great gift, wisdom!.

The experience that I had with the Doctors Mateo, makes me feel the need to always express my gratitude and full confidence in them, and also I enjoy the blessing of being a mother.

I have 2 friends from Las Vegas and my cousins in Los Angeles that also put themselves in the hands of the Mateo doctors, because of my experience, and they also had the chance to experience pregnancy and parenthood as me. Reinforcing the saying:

"The doctor that never fails"

Thank You so much for taking the time to read this testimony and Thank You Dr. Henry for all your cares!

COME ON!...NEVER SAY NEVER!

“NEVER SAY NEVER, EVERYTHING IS POSSIBLE”
